

# Md Sojib Hasan

## Backend Developer

Dhaka,Bangladesh | +8801623966595 | sojibhasan5800@gmail.com | [Linkedin](#) | [Github](#) | [Portfolio](#)

### Summary

Python/Django Backend Developer (**1+ year experience**) with hands-on experience in building and deploying scalable REST APIs using Django and DRF. Demonstrated advanced **problem-solving skills** by solving **600+ algorithmic challenges** on competitive programming platforms such as [LeetCode](#), [CodeChef](#) (3★), and [Codeforces](#). Strong in backend logic, debugging, and team collaboration.

### Technical Skills

- **Programming Languages:** Python, C, C++, JavaScript
- **Front-End:** HTML5, CSS3, JavaScript (ES6+), React.js, Tailwind CSS, Bootstrap
- **Backend & API Development:** Django · Django REST Framework · JWT Authentication · OAuth 2.0 · RESTful APIs
- **Databases :** MySQL, PostgreSQL
- **Software Testing:** Postman · Pytest · Unit Testing
- **Task Queue & Caching:** Celery · Redis · Asynchronous Task Handling
- **DevOps & Deployment:** Docker (basic) · GitHub Actions (CI/CD) · Render · Vercel · .env Configuration
- **Tools & Soft Skills:** Git, GitHub · Swagger UI · Trello · Clean Code · Fast Learner · Team Collaboration

### Projects

#### → Flip\_Cart E-Commerce Platform

[Live Demo](#) | [GitHub Repo](#)

Built a secure, scalable e-commerce app with core features like authentication, cart, and payments.

- Built RESTful APIs using Django/DRF and PostgreSQL
- Implemented JWT auth, user roles, and email verification
- Used Redis & Celery for async tasks (e.g., emails, orders)
- Deployed on Railway with Docker & production setup

◆ **Technology Used :** Python, Django, DRF, PostgreSQL, Redis, Celery, Docker, Railway, HTML, CSS, JS

#### → Car Dealer Website

[Live Demo](#) | [GitHub Repo](#)

Built a secure car listing app with JWT auth, dealer contact feature, and admin panel.

- Developed REST APIs using Django/DRF and PostgreSQL
- Implemented JWT auth, role-based access, and image via URL
- Deployed on Render using Docker; used Redis & Celery for async tasks

◆ **Technology Used :** Python, Django, DRF, PostgreSQL, Redis, Celery, Docker, Render, HTML, CSS, JS

### Education, Training & Achievements

- B.A. (Hons.) in Accounting, NU, Gazipur, Dhaka (Graduated: 2025)
- CSE Fundamentals (Course), Phitron | Focus on DSA,OOP and Algorithm
- [CodeChef](#) – 3 Star Rated Competitive Programmer (~1600+)
